

TWO BIG MEETINGS FRIDAY NIGHT

Arranged for Governor Willson
Here in Eight Hours
Time.

LOCAL COMMITTEE SURPRISED—
PEOPLE VERY MUCH PLEASED.

Governor Augustus E. Willson visited Earlington last Friday night and made two notable speeches, in spite of the fact that he had already made two speeches at Marion during the day. He arrived on the seven o'clock train that evening and was met by the full membership of the reception committee, announced in our last issue, besides a large number of citizens and the Klub Kentuck Band. As he alighted from the train he asked with some surprise "what is this band here for?" The friend who answered said "why, Governor, we are going to have a speech out of you tonight." And he replied "I stopped here to rest, I'm all tired out, have made two speeches already, I really can't do it." The only comfort he got was the answer "well, the fact is, Governor, we are going to have two speeches out of you tonight." And we did. After he had changed his collar, which was died green from the heat of the day and the coloring matter in his tie, and had eaten some fish right out of Loch Mary, he offered no further resistance, but went through the program arranged for him by the local committee, to the delight of two large audiences. It happened this way. The Governor was coming this way and would speak at Madisonville on Saturday afternoon. The county campaign committee thought Earlington could have him for a speech Saturday night. Earlington republican leaders determined to advertise him for that time, though they were not able to get into telegraphic communication with him, the only information being that he would be in Marion Friday. Friday morning a telephone message came from a friend of the Governor at Marion, saying he would spend Friday night in Earlington and rest here before his day's work at Madisonville next day. And the Governor didn't know he was to speak here. The local committee immediately changed their plans and with but six or eight hours in which to work, changed the announcements already made and had that evening the Auditorium packed with a fine audience of the white citizens of Earlington and he wives and children, and an after meeting of colored voters at the A. M. E. Zion Church, which filled that building. Governor Willson proved himself an exponent of good feeling and neighborly treatment between men of opposite political faiths, even during campaigns, and elicited favorable comment for many of Earl

...nere hony's citizens regardless of political faith. His speeches intended to with marked toned and were accorded a becal amount of applause. Governor was entertained by M. Moore at the rest John B. Atkinson, in the of Mr. Atkinson, who d with his family from sey Saturday afternoon. he meetings were over members of the reception e called on the Gover ing with them several officers of the Third Regiment. Plans

were agreed upon for the entertainment of Gov. Willson next morning, including a visit to and inspection of the Third Regiment Rifle Range and camp site. Saturday morning this trip was made in carriages, the Governor being escorted by Adjutant Frank D. Rash, Capt. Paul P. Price, Lieut. Henry Rogers and Lieut. Brick Southworth. The Governor was very much pleased with both the range and the camp site. He is himself a rifleman and has taken great interest in the rifle practice on the several ranges in Kentucky, and this is the only one that has yet been permanently built and equipped in the modern way. Gov. Willson was accompanied to Madisonville by the Klub Kentuck Band, on the eleven o'clock train.

GOVERNOR AT MADISONVILLE Spoke to Large Gathering and Started a Football Game.

There was perhaps never a better representative gathering of Hopkins county citizens to greet any speaker than the one that Governor Willson faced Saturday afternoon at the Tabernacle in Madisonville, and there has scarcely been a larger meeting there, for the reason that the building was full to its capacity, with many standing. The Klub Kentuck Band preceded the carriages occupied by the Governor and members of the reception and entertainment committee and candidates, escorting the speaker from Hotel Mary to the Tabernacle. The distinguished visitor was entertained at luncheon, together with the committee, Mr. C. J. Waddill, candidate for Circuit Judge, and other candidates. A large number of ladies sat in the audience and some of them even found seats in the balcony on account of the crowded condition on the main floor. The band rendered music before and after the speaking, including "My Old Kentucky Home," and was much complimented both on appearance and the manner in which the music was rendered.

Mr. Waddill's beautiful little twin girls had been selected by the committee to present bouquets of choice flowers to the Governor on behalf of the public and, after a few words of explanation by Mr. Waddill, they did their part in that pretty ceremony and received in turn a touching tribute from the speaker. Letcher, Fox, chairman of the committee, introduced Gov. Willson in a few words.

The Governor made a speech of good will and good sense and good humor, amounting to almost exhortation to neighbors, Republicans and Democrats, to dwell together in harmony, call no ugly names, preserve their good humor and dwell together in harmony—even during political campaigns. He maintained that Democrats had quite as much right to their opinions and to have their opinions respected, as the Republicans, and held that conditions are always better in counties or districts that are close politically than in those which have been dominated for a long time by either party. He defended the present administration against various attacks that have been made upon it, in a very frank and effective manner, and had the sympathy and applause of the audience, generally, throughout the meeting.

At the close of the meeting (Continued on page three)

RIFLEMEN IN THIRD REGIMENT

Shoot Over Earlington Range
Makes "Expert Riflemen,"
"Sharpshooters" and
"Marksmen."

Earlington Has Eight of Highest Class
—With Lieut. Rogers Leading.

Excellent records were made by volunteer riflemen of the Third Kentucky Infantry during the special "shoot" which ended Friday. As this is the only Kentucky range equipped for long distance shooting all the "expert riflemen" of this year's practice in Kentucky were qualified on this range, and all of them are members of the Third regiment. Fourteen men, officers and privates, qualified as "expert riflemen" and eight of these are Earlington men. Three attained the mark of "sharpshooter" and fourteen made record as "marksmen." In the order of their qualifying scores, the names of these riflemen and the companies to which they belong, appear below. Lieut. H. W. Rogers, Co. G, of Earlington, holds highest score, 395 out of a possible 450. Three members of Col. Henry's staff who shot over the range all made "expert riflemen."

SCHOOL LAW CHANGES

State Educational Commission Proposes
Bill That Makes Radical Departures.

Frankfort, Ky., Oct. 25.—Important changes in the present school law of Kentucky are to be presented to the Legislature at its next session. The new bill was prepared by the Kentucky Educational Commission and while the bill has not been completed a rough draft of it has been made. The bill replaces the present State Board of Education and provides for general supervision of education and the preparation of examination ques-

tions. The State Superintendent of Public Instruction is given much larger powers. As to the County Superintendents the bill will provide that they must devote their whole time to their duties and their salaries are to be increased.

TAFT ON "RAILROAD BAITING."

Not in Favor of Legislation Against
Companies Except When Necessary
to Keep Them Within the Laws.

Corpus Christi, Texas, Oct. 23.—President Taft had something to say here Friday morning on another railroad agitation, and he said it with Governor Tom Campbell, one of the recent southern crusade against the railroads, on the same platform with him.

"I am not in favor of legislation against the railroads," said the President, "except when it is necessary to keep them within the laws."

He went on to say that the average community readily voted bonds to get a railroad, and then when the payment of the interest on the bonds began to get tiresome, the community undertook to legislate against the road. The result was that the equipment of the road deteriorated, it was unable to earn a fair income on its investment, and the community's accommodations fell off. The community, in effect, was "cutting off its nose to spite its face."

"Then, said he, "they realize that the only good and honest course is the square deal toward the railroads, so as to give them a reasonable return on the money invested." The crowd cheered, and Governor Campbell looked anything but enthusiastic.

FOUND DEAD IN BATHROOM

J. Howard Robinson, Former Louisville
Newspaper Man, Asphyxiated
By Gas.

Nashville, Tenn., Oct. 25.—While taking a bath at his home near here Sunday morning, J. Howard Robinson, a magazine and newspaper writer, was asphyxiated by fumes from a gas heater. Robinson was 29 years of age and a native of Kentucky, being reared near Guthrie. For several months he had been connected with a press clipping bureau here. Previously, he conducted a newspaper at Guthrie, and following that he was employed in daily newspaper work in Louisville and New York.

His wife, who was Miss Emma D. Hambrough, of Clarksville, Tenn., becoming uneasy over Mr. Robinson's continued absence, went to investigate and found the body in the bathtub with the room filled with gas. The remains were taken last night to Mr. Robinson's former home, near Guthrie. He was buried in the family lot at Bowling Green today.

PERMIT ASKED

For Kentucky Soldiers to Enter Tennessee
on Way to Hickman
Celebration.

Frankfort, Ky., Oct. 23.—Private Secretary Todd for Gov. Willson made a request on Gov. Patterson, of Tennessee today for permission for the military companies at Hopkinsville and Owensboro bearing arms to enter Tennessee on their way to Hickman to participate in the Taft celebration next week.

WASTE MUST BE STOPPED

Startling Figures on Coal Consumption and Barren Areas.

Same Reasons to Conserve Coal Here
as in Appalachian Field.

It was formerly supposed that the several coal formations of Appalachian region would hold coal of commercial value over the entire area of that great field. This is a grave mistake, so far as the Monongahela and Pottsville series are concerned. The Allegheny and Kanawha coals also share the same fate when they pass under water level toward the center of the Appalachian basin. Instead of a continuous sheet of productive coal measures underlying this entire field, there is a great barren zone which in the Allegheny series begins a few miles north from Pittsburgh, and, embracing most of Allegheny county, a large portion of Westmoreland, practically all of Washington, Greene, and western Fayette, as well as southern Beaver, passes southwestward entirely across West Virginia and southeastern Ohio, thus reducing enormously the productive area of the Allegheny series and its usually estimate coal resources.

Extent of Reduction of Productive Areas.

The effect of this barren zone on West Virginia's productive coal area is to reduce it from 17,000 square miles, as usually given in statistical tables, to only about half that size, and the tonnage, as recently estimated by M. R. Campbell, United States Geological Survey, from 231,000,000,000 to only about 60,000,000,000 tons of first class available fuel, after providing for the necessary waste in mining. The 112,000,000,000 tons of bituminous coal originally existing in Pennsylvania and 86,000,000,000 in Ohio, as estimated by Campbell, are also both much too great, on account of this barren zone. Pennsylvania will not furnish much more than 40,000,000,000 tons and Ohio probably not much more than 25,000,000,000 tons of commercial bituminous coal; so that Pennsylvania, Ohio, and West Virginia, will together produce only about 125,000,000,000 tons of good coal and probably 50,000,000,000 tons of an inferior grade.

Duration of Northern Appalachian Field.

This shortage brings to the citizens of the Pittsburgh region the most serious problem that has ever confronted them. They have been told that they originally had 430,000,000,000 tons of coal in the three states that surround them, and that it would suffice for 150 to 200 years. The truth is they have only about one half of that amount, and with the present wasteful mining methods it will last only fifty years. Pennsylvania had remaining 1,090,000 acres of it at the beginning of 1908, and she has several thousand acres less now, since her annual production from the Pittsburgh coal bed is approximately 95,000,000 tons. This represents an exhaustion of over 1,000 acres every month. Hence, should there be no increase in production over the present, this famous coal bed would be entirely exhausted from Pennsylvania within 80 to 90 years.

Mines of West Virginia and Ohio.

West Virginia has only about the same acreage of this great coal bed as Pennsylvania. Ohio's entire area will be pract-

ically gone in 25 years. One can readily perceive that, with only a century's supply at the present rate of mining and in view of the greatly increased production which can not fail to come with our growth in population, fifty years is a liberal estimate for the life of the Pittsburgh coal bed. The same cause will in approximately that time exhaust all of the cheaply mined thin veins in the Allegheny series of Pennsylvania, Ohio, and northern West Virginia, and Pittsburgh's industries will have entered upon the expensive method of mining coal by deep shafts to thin bed of inferior quality, and of attempting to recover at great expense the millions of tons of good fuel already left in the pillars, roofs, and bottoms of abandoned mines. This is no fairy story. It is as sure to come to pass at approximately fifty years in the future, if present wasteful methods continue, as that the sun will rise to-morrow.

Present Waste of Fuel.

The citizens of Pennsylvania, and especially of the Pittsburgh district, have already wasted more of their precious fuel supplies, both solid and gaseous, than they have ever used. The quantity of natural gas, that best of all the fuels, which western Pennsylvania has wasted from the many thousands of wells drilled within her borders, vastly exceeds in value all the petroleum she has ever produced. Not satisfied with thus despoiling their own commonwealth of its most precious fuel possession, some of the most powerful corporations, with headquarters in Pittsburgh, have been the principal agents in wasting unnumbered billions of cubic feet of this precious fuel in Ohio, and West Virginia.

Needs of Conservation.

The story of "Coal Oil Johnny" is being re-enacted by the Pittsburgh district and many other districts of our country on an enormous scale, and the final results, although a little longer delayed, can not fail to be similar. On the one hand we perceive our fuel resources reduced by this barren zone to one-half of what were supposed to be readily and cheaply accessible, and on the other, these resources so greatly depleted by unbridled waste that in only a few years at most cheap fuel will have passed into history from this great district. But just as surely as the successful past and glorious present have been founded upon unraveled resources in cheap fuel, so surely will these great industries decline and die with its disappearance. "Mene, Mene, Tekel, Upharsin" will be written large over the gateways of the Pittsburgh district before the present century closes, unless the men who own the mines and factories awake at once to the danger that portends.—Prof. C. White, in Bulletin of the Geological Society of America.

Hopkinsville Soldiers Enroute to Hickman.

Paducah, Ky., Oct. 25.—Company D, State Guard, of Hopkinsville, arrived here this morning en route to Hickman to participate in the welcome of President Taft there tomorrow. The soldiers are in command of Capt. Ed Clark.

PROPOSED INDUSTRY

Important New Manufactory May be Established in Earlington

SAMUEL R. MAXWELL AND ASSOCIATES ARE CONSIDERING.

A new industry for Earlington. Samuel R. Maxwell who has been holding a series of meetings for the past two weeks at the Christian church in Earlington, advises us that he has induced his associates in business to come to Earlington to consider a co-operative proposition from citizens to establish a manufacturing plant and sale department for their business in this territory.

A few of Earlington's business men have invited these gentlemen, namely G. E. Hymer, of Kansas City, and S. R. Maxwell and W. A. Barry, of St. Louis, Mo., to locate a plant here. Only our plant will be established in the state of Kentucky. It will be the first plant in the South and the second plant in the North States, hence it is a grand floor proposition to be operated by and controlled by local stock holders strictly and should approve to every business man of Earlington. The gentlemen mentioned owned and controlled the rights and patent on the article manufactured and the plant in Earlington will control sufficient territory in keeping up to the capital invested and its capacity to insure its operation 12 months in the year. It should employ from 150 to 250 high class men, office men, salesmen and factory laborers.

Mr. Maxwell is in St. Louis and will return Wednesday when he, Mr. Hymer and Mr. Barry will be ready to confer with Earlington business men and decide whether the inducement offered by Earlington will locate the business here or not.

The Article of Manufacture, namely, a complete Laundry Washer Machine, is pronounced by all who own it to be the "simple wonder of the age." The machine will be on exhibition Monday in the Victory building where all who wish to see it work. Earlington ladies are especially invited to bring their lace curtains, waists and other dainty fabrics, also counterpanes and towels, etc., to the building for the demonstration. Mr. Hymer will wash them and clean them for you. No charge.

It is a treat to see the machine and ladies who care to can see the machine work. The gentlemen associated with this enterprise do not require any introduction to Earlington business men. Earlington can secure this industry and should get busy. Its citizens have been given the first chance and Earlington needs a good factory.

TOM HOPWOOD INDICTED FOR MANSLAUGHTER

Killed Elbert Brans on October 7 in a Henderson Saloon.

Henderson, Ky., Oct. 22.—Tom Hopwood, who shot and killed Elbert Brans on Oct. 7, in Dill's saloon in this city, was indicted this afternoon on the charge of manslaughter. Hopwood gave bail late today and was released from custody. He has been confined in the county jail since the crime. He will be tried at the January term of circuit court. The bail was placed at \$1,000 by Judge Hanson and the prisoner's father and uncle signed the bond.

GOVERNOR AT MADISONVILLE.

(Continued from first page.)

the band struck up and hundreds of people, ladies and gentleman, came to the platform to shake hands with the speaker. From the Tabernacle the Governor and party drove to the fair grounds, where he gave the official start to a football game between the Madisonville and Henderson high school teams. He was photographed there with the football players as he had been before with the Klub Kentuck Band, and after watching the game for short time, proceeded to the hotel and took train for Louis-

ville. It was necessary for him to get away at that time in order that he might reach St. Louis on Monday in time to join President Taft and party for the waterways inspection trip down the Mississippi to New Orleans.

An enthusiastic reception was given the Governor on his arrival at Madisonville Saturday by a number of citizens who were awaiting his arrival.

GOOD ROADS AMENDMENT

Editor Summers Speaks in Favor of Proposed New Law.

Hopkinsville, Ky., Oct. 23.—Under the Auspices of the State Good Road Association a mass meeting was held here this after-

noon in the interest of the proposed Bosworth-Wyatt amendment to the State Constitution. Delayed trains prevented the arrival of Senator Bosworth and Wyatt, framers of the amendment, and Messrs. McCarty and J. V. Beckham until after the meeting adjourned, while cold and blustering weather kept down the attendance.

Editor Harry Somers, of Elizabethtown, was hero, though, and made a most effective speech, outlining the great advantages that would come to every section of the State if the amendment, which provides for State aid to the counties in building better roads, is passed.

He declared that only those States which granted State aid

in this way had showed advance-ment in the last decade, and that if Kentucky adopted the same plan the present majority of poorer counties would soon become self sustaining.

Charles E. Barker, member of the Executive Committee of the Good Road Association, also spoke along the same lines.

DRY FARMING CONGRESS OPENS

Twelve Hundred Delegates Present And Others En Route to Billings.

Billings, Mont., Oct. 25.—The Dry Farming Congress opened this morning with 1,200 men interested in raising grain and vegetables with little rainfall pre-

sent. Between 500 and a thousand more are expected to arrive to-day.

The Dry Farming Congress was organized in Denver four years ago from a little meeting of 150 men. It is attended by representatives of at least a dozen foreign countries.

All railroads operating in the country affected are taking a deep interest in the work of the Congress and have their high officials in attendance.

In connection with the exposition there is not less than \$50,000 worth of machinery adapted to dry farming work.

May Result in Murder.

Madisonville, Ky., Oct. 23.—Saturday night two negroes,

William Yarbrough and George Bone, became involved in a difficulty over some trivial matter when Bone drew a knife and cut Yarbrough, inflicting several serious wounds in the stomach. It is the opinion of the attending physicians that Yarbrough will die.

Dull London.

The poet Gray would have agreed with James Douglas in thinking you cannot be gay in London. "I have been at London this month, that dreary, dull place, where all people under 30 find so much amusement," he wrote to a friend. And Fielding makes Joseph Andrews say in a letter to Pamela, "London is a bad place, and there is so little good fellowship that the next door neighbors don't know one another." A Boswell undoubtedly remarked: "I have often amused myself with thinking how different a place London is to different people."

JUDGE HENSON EXONERATED

Grand Jury Finds No Bases for Insinuation Against Him

Henderson, Ky., Oct. 22.—The grand jury returned a report this morning completely exonerating Judge Henson on the charge made in a published letter of J. Stokes Taylor in which he intimated that Geo. L. Campbell had received a "tip" in advance in the tobacco case recently decided by Judge Henson.

Resolutions of Respect.

We, the committee on resolutions on the death of W. E. Gordon beg leave to make the following report.

Whereas the Supreme Ruler of the Universe in the disposition of His all wise Providence has removed from our midst our brother, W. E. Gordon, who departed this life Oct. 23, 1909,

Be It Resolved, That, by his death the Earlington Community, U. O. G. C., has lost a faithful member, his wife a faithful and loving husband, and his children a kind father.

That our tenderest sympathy be extended to his family and loved ones, in this, their sad hour of affliction, and that we point them to Him who doeth all things well for comfort and solace.

That the Earlington Community, U. O. G. C., wear the usual badge of mourning for thirty days and that their resolutions be given a place in our lodge records, and a copy sent the family.

STATE OF ILLINOIS LOSES RIVER SUIT

SUPREME COURT DECIDES LIGHT AND POWER CO.'S CONTRACTS ARE GOOD.

A BLOW TO WATERWAY PLANS

Judges Hold Desplaines Is Not Navigable, Owing to Various Obstructions—Title to River Bed Passed From State.

Springfield, Ill., Oct. 27.—The famous case of the State of Illinois against the Economy Light and Power company, around which hinged legislation in regard to a deep waterway at the last session of the general assembly, was decided by the supreme court Tuesday morning, the state losing every main contention it made.

Some years ago the Illinois and Michigan canal commissioner executed a contract with the Economy Light and Power company by the terms of which the company was to construct a dam in the bed of the Desplaines river for the purpose of furnishing power. Gov. Deneen sought to have this contract invalidated, his main contention being that the river was navigable and that, therefore, the contract had no binding effect. The case has been stubbornly contested.

The State's Contentions.

The main contentions of the state were:

"That the state of Illinois owns the bed of the Desplaines river at the point where the dam of the Economy Light and Power company is located."

"That the Desplaines river is a navigable stream and that the proposed dam would constitute an obstruction to navigation."

"That certain contracts executed by the Illinois and Michigan canal commissioners under which the Economy company claims certain rights are void and offer no justification for the construction of the dam across the Desplaines river."

On the first point the court holds that the title which the state originally owned in the bed of the river passed out of the state by a conveyance made by the Illinois and Michigan canal commissioners in 1859, in pursuance of a law passed by the legislature in 1843, which authorized the commissioners to convey any and all lands which the state then owned for the purpose of creating a fund with which to complete the canal.

On the second point the court holds that the question of navigability in law is navigability in fact, and that the evidence introduced by the state in support of the claim that the Desplaines river is navigable does not show that it has ever been used as a highway for commerce, and that, owing to its crookedness and the great fall between Lockport and the place where it empties into the Illinois river it presents obstructions such as have never so far been overcome.

On the third point the court holds that all the contracts are valid and that the rights claimed by the Economy Light and Power company under them can be exercised for the full period of 20 years.

Hoge, Lincoln, Va.; treasurer, Mrs. Elizabeth R. Hutchinson, Evanston, Ill.

Noose On a Police Come.

Philadelphia, Oct. 27.—Arguments over the merits of Jeffries and Johnson led to a race riot, which, but for police interference would have resulted in the lynching of Frank Conklin, a negro. The noose already was around his neck and he was being dragged to a telegraph pole when the police clubbed many of the would-be lynchers into submission.

Flinders Flances With Threat Cut.

Jacksonville, Fla., Oct. 27.—With her throat cut, Mrs. Mabel A. Beauchamp of Boston, was found in her room in the Argon hotel by her physician, Dr. E. E. Barker of New York, who accompanied her here and occupied a room across the hall. It is understood they intended to be married shortly.

Wreck Kills 1; Hurts 5.

Madison, Wis., Oct. 27.—H. H. Cronk, a stockman, was killed and five were injured when a Chicago & North-western passenger train struck a stock train in the yards here. E. F. Foster, Priceville, Ill., and Robert Lloyd, Waucho, Mont., both stockmen, were seriously injured.

TAFT STOPS AT MEMPHIS

GOV. PATTERSON INTRODUCES CHIEF EXECUTIVE.

President Dedicates New Y. M. C. A. Building and Delivers Address in the Tennessee City.

Memphis, Tenn., Oct. 27.—The tooting of whistles on the river at eight o'clock this morning announced the arrival of the flotilla that is bearing and escorting President Taft and scores of other distinguished persons to New Orleans. Gov. Patterson, Mayor Malone and numerous city officials led the large reception committee aboard the steamer Oleanor as soon as it reached the dock, and welcomed the president.

The entire party, after the exchange of greetings, took seats on an immense automobile parade was formed with Mr. Taft's car in the lead. Through streets thronged with cheering citizens the procession moved to the newly completed Young Men's Christian Association building. There all alighted and the building was dedicated, the president taking a prominent part in the ceremony.

Then the automobile parade was reformed and took its way to the Auditorium, which was packed with humanity to its limit. As the presidential party entered the vast assemblage rose to its feet and shouted a mighty welcome to the nation's chief.

Gov. Patterson introduced Mr. Taft in a brief speech and the president delivered an address that pleased his hearers immensely. Back to the river front the procession went, and promptly at noon the Oleanor steamed away, followed by the scores of vessels that make up the deep waterway fleet. At Helena, Ark., Mr. Taft will go ashore at six o'clock this evening and will be escorted through brilliantly illuminated streets to the custom house, where Gov. Donaghey will introduce him and he will make a speech.

ELIOT ASSAILS COMBINES

Harvard's President Emeritus Demands Federal Interference With Labor and Capital Agreements.

Gambler, Ohio, Oct. 27.—Demand for federal interference with monopolistic agreements of labor and capital was voiced here Monday night by President Emeritus Eliot, of Harvard to a Kenyon college audience.

Dr. Eliot declared many of the evils of trades unionism were showing a tendency toward eradication. Among the evils he charged to unionism are limitation of output, limitation of the number of apprentices, opposition to free trade schools, the boycott, the demand for the union label on goods and the sympathetic and general strike.

"The policy," he said, "of arriving at joint agreements of labor and of capital without allowing the consumer a voice in the final decision is against all the traditions of true democracy."

THAW'S APPEAL IS DENIED

Justice Milla is Upheld in Keeping Stanford White's Slayer in Matteawan Asylum.

Albany, N. Y., Oct. 27.—The court of appeals dismissed the appeal of

Harry K. Thaw, acquitted of the murder of Stanford White on the ground of insanity, from the order of the lower court refusing to release him, from confinement at the Matteawan State hospital for the criminal insane.

Thaw's counsel, A. Russell Peabody, sued for a writ of habeas corpus to secure Thaw's release.

Justice Milla declined to issue the writ and the appellate division upheld his decision. The court of appeals confirms the action of the appellate division on the opinions of Justices Jenks and Rich.

Warned in a Dream.

When Martin Michael went to his work in a lumber yard in Brooklyn, N. Y., the other morning, he told his fellow-workmen that he had had a curious dream and was afraid it fore-shadowed trouble for him. He seemed worried over it, but the other men laughed and he did not speak of it again. About ten minutes before the time to quit work for the day, a sharp splinter of wood flew from a piece Michael was holding against a buzz-saw, and passed through his body. A doctor was hurriedly called, but Michael was beyond human aid.

New Oliver No. 5

Sets Swiftest Pace Ever
Known in Typewriter Selling.

The wonderful new model, Oliver No. 5, has taken the market by storm. Its reception by the public has exceeded in enthusiasm anything we had dared to anticipate.

Employers and stenographers alike have welcomed it as the one machine that answers the multiplied need of the hour. The cry is for Speed! Speed! Speed! and the Oliver responds.

The demand for Durability is filled by the sturdy, steel-clad Oliver. To a call for a writing machine that will do many things and do each of them equally well, the Oliver answers with its unexampled versatility.

—Its stable writing saves the strain of eye and brain.
—Its legibility lends beauty to its work.
—The letters that bear the Oliver imprint are the letters that count to speak.

Oliver No. 5 fairly bristles with new and exclusive time-saving features. We have space to mention only a few of the more important ones.

—Disappearing Indicator shows exact printing point.
—Balance Shifting Mechanism saves operative effort.
—Line Ruling Device is fine for tabulated work.

—Double Release doubles convenience.
—Non-Vibrating Base insures stability. Yet with all of these added improvements, we have still further simplified the Oliver by facing brains with metal.

Oliver No. 5 is a dream come true—the dream of Thomas Oliver crystallized into this wonderful mechanism of shining steel that embodies every possible requirement of a perfect writing machine.

"It is easy enough to hitch your wagon to a star," declared the theatrical manager. "Say on." "How to keep from being bounced out of the wagon is the question."—Louisville Courier-Journal.

Straw Used for Matches.

The straw of various grasses and cereals has been tried and found suitable for wood in making matches. The straw is cut into two-inch lengths by machinery, winnowed to obtain uniform size, and then holed in paraffine, dried and dipped into the mixture of chlorate of potash, gum arabic, etc., for the inflammable tip. This process should, if adopted on a large scale, obviate the use of wood and also give an improved match, with the advantages of a wax veta, at a very small cost.

Money Comes in Bunches

to A. A. Chisholm, of Treedwell, N. Y., now. His reason is well worth reading: "For a long time I suffered from indigestion, torpid liver, constipation, nervousness, and general debility," he writes. "I couldn't sleep, had no appetite, nor ambition, grew weaker every day in spite of all medical treatment. Then used Electric Bitters. Twelve bottles restored all my old-time health and vigor. Now I can attend to business every day. It's a wonderful medicine." Infallible for Stomach, Liver, Kidneys, Blood and Nerves. 50c. at all druggists.

His First Chance.

A Bed-Rock of Success

lies in a keen, clear brain, backed by indomitable will and restless energy. Such power comes from the splendid health that Dr. King's New Life Pills impart. They vitalize every organ and build up brain and body. J. A. Harmon, Lismore, W. Va., writes: "They are the best pills I ever used." 25c. at all druggists.

Wrong Idea Lasts Long.

The last thing that men learn about women is how transparent and natural they really are in all the essentials, our delay being due largely to our own want of imagination, and not a little to the circumstances that we are brought up to expect frankness, sincerity and intellect.

A Banquet

Tribes Have Retrograded.

It seems strange that though Hebrew was the seat of the earliest civilization in Palestine, to-day the inhabitants of the surrounding country are wild and fierce and spend their days roaming about with their flocks, camels and asses, traveling from valley to valley in search of food, pitching their tents, just as their ancestors did 1,000 years ago.

NOT ALL GOODNESS OF HEART

Pulman Porter Had Good and Sufficient Reasons for His Professed Services.

"What nunnah, lady?" asked the pleasant looking porter of the woman who entered his Pullman an hour prior to train time.

"Upper 16," answered the mild passenger.

"Upper 16!" The porter's exclamation was almost a shriek, and his yellow face screwed itself into wrinkles of concern.

"I know it's hard," sighed the woman, as, with a softening of her heart, she felt that this mental was expressing for her the indignation she would have liked to voice herself.

"I don't b'lieve this ca-ah's all sold out like that!" he scolded. "You just have a seat thoah, lady, while I goes into the office; I kin suah git you something bettah!"

The world was not so bad after all. There was a goodness in human nature which exceeded her most optimistic dreams. For here was this man, belonging to a department of service not noted for its eagerness to coddle patrons, taking such a kindly interest in her comfort.

The porter returned, with a lag in his step and a discouraged shake of his head.

"Best we kin do, lady; got an awful crowd comin' on heah to-night!"

"Well, it's too bad; but thank you, just the same, for your trouble," beamed the recipient of this unusual attention.

"Yas'm, suah it's too bad!" muttered the porter, as he started for the back cupboard. "I was goin' to sleep in upah 16 mahself!"—Puck.

A Day's Work.

One woman's work was done when Mrs. Grace Smith of Beverly, W. Va., dropped dead after sitting up all night with a sick child, doing the washing for three families, picking five gallons of berries and walking to town to buy sugar to preserve them. Nothing is said as to what she did between times to keep from being idle. —Pittsburg Press.

It's a Top Notch Doer.

Great deeds compel regard. The world crowns its doers. That's why the American people have crowned Dr. King's New Discovery the King of Throat and Lung remedies. Every atom is a health force. It kills germs, and cures colds and influenza, bronchitis and coughing stops. Sore, inflamed bronchial tubes and lungs are cured and hemorrhages cease. Dr. Geo. More, Black Jack, N. C., writes, "It cured me of lung trouble, pronounced hopeless by all doctors. 50c. \$1.00. Trial bottle free. Guaranteed by all druggists."

She Had Had Enough.

At the Unitarian church in Beverly, a sweet little miss was at the service with her mother recently. The little one didn't seem to comprehend the sermon a little bit, although the pastor was her grandfather, and after a restless half hour she turned to her mamma and said in an audible whisper: "Why don't grandpa stop talking?"—Boston Journal.

"Had dyspepsia or indigestion for years. No appetite, and what I did eat distressed me terribly. Burdock Blood Bitters cured me."—J. H. Walker, Sanbury, Ohio.

The Little Cuss.

A llama looks as innocent as an officer man in the Salvation army. He chews no tobacco, but he can spit into a man's eye 12 feet away and never touch an eyelash, and oh, how it stinks and stings. Little boy, don't tease the llama.—New York Press.

Frightful Fate Averted.

"I would have been a cripple for life, from a terrible cut on my knee cap," writes Frank Disberry, Kellier, Minn. "Without Bucklen's Arnica Salve, which soon cured me." Infallible for wounds, cuts and bruises, it soon cures Burns, Scalds, Old Sores, Boils, Skin Eruptions. World's best for Piles. 25c. at all druggists.

The Way to Happiness.

To look fearlessly upon life; to accept the laws of nature, not with meek resignation, but as her sons, who dare to search and question; to have peace and confidence within our souls—these are the beliefs that make for happiness.—Materlinck.

Slightly Colder With Snow.

When you see that kind of a weather forecast, you better get your rubber boots ready for it now by getting a bottle of Ballard's Snow Liniment. Kinest thing made for rheumatism, chilblains, frost bite, sore and stiff joints and muscles, fall, achy and pains. 25c. 50c. and \$1.00 a bottle. Sold by St. Bernard Mining Co., Incorporated, drug department.

Real Deep Sea Fish.

In the beginning of the last century halibut emigrated to deeper and deeper water, until they are now caught in depths of 150 to 250 fathoms, in deep sea valleys. Halibut capture cod by stunning them with strokes of the tail. The toe of a 350-pound halibut weighing 44 pounds, was over two feet long and contained more than 2,000,000 eggs, says Prof. David Starr Jordan.

Cold Weather Advice

to all is to beware of coughs and colds on the chest; as neglected they readily lead to pneumonia, consumption or other pulmonary troubles. Just as soon as the cough appears treat it with Ballard's Horehound Syrup the standard cure of America. Use as directed—perfect harmless. A cure and preventive for all diseases of the lungs.

Providential Escape.

The old lady had had a severe illness, and she was relating its vicissitudes to a friend or two in the grocer's shop when the minister came in. "It's only by the Lord's mercy," she proudly declared, "that I'm not in heaven to-night."—Manchester Guardian.

The Tyrannical Husband.

The tyrannical husband may be the truest of lovers, but if he always insists that the compromise shall be on the blue, his wife will shed many tears in secret. This good man seems to think that four walls and a roof are enough of a sphere to satisfy a sensible woman, and he is amazed beyond words if his wife ever desires anything outside them. Should she intimate a wish to go away for a visit of a week or a month, he raises objections without number. Instinctively the masculine mind is quick to see the other side of any question presented, and can scarcely avoid raising objections whenever a new course is proposed. Men do not mean to be wet blankets, yet wet blankets they are in five cases out of six. When the despotic husband wraps the wet blanket of his opposition around the wishes of a docile wife, there is an end of the matter. She will yield her own position rather than have a scene or a fuss.—Woman's Home Companion.

The Dirty Face Fad.

The latest craze among the ultra-fashionables of London is to have dirty faces. Some few years ago the same young men developed a fancy for perambulating the streets without hats, but the coming of the automobile changed the mode of showing that you are not quite as other men. The idea is to carry just enough dirt to look like fast, long distance riders who have had no time to remove the dust of travel.—Dundee Advertiser.

Never can tell when you'll wash a greaser or suffer a cut, bruise, burn or scald. Be Prepared. Dr. Thomas' Electric Oil instantly relieves the pain—quickly cures the wound.

A Great Character.

A great character, founded on the living rock of principle, is, in fact, not a solitary phenomenon, to be at once perceived, limited and described. It is a dispensation of Providence, designed to have not merely an immediate, but a continuous, progressive, never-ending agency. It survives the man who possessed it; survives his age—and perhaps his country, his language.—Edward Everett.

Feminine Finance.

The girl who has the least chance of being trained is the one whose father takes unaction to himself in not "bothering his womenfolk" with his worldly affairs.—The Queen.

Professor Got Results.

It is said a noted professor of chemistry, who is always experimenting, thought his three attractive children too lethargic, and so he administered a diet of yeast. The result has been prompt and effective. According to neighboring observations, the professor will have to prescribe sedatives next time.

A Splendid Remedy

D. W. Hart, Plagah, Ky., Breeder of B. P. Rocks, says: "I used Bourbon Poultry Cure with my fowls and find it to be a splendid tonic and conditioner. I have also cured cholera with it." Sold by St. Bernard Mining Co., Incorporated, drug department.

Bolivia's Mineral Wealth.

Bolivia is famous for its silver, but also possesses considerable quantities of gold, which, however, cannot be extracted without great expense. In the seventeenth century an Indian near the town of La Paz found a mass of gold, supposed to have been detached from the neighboring mountain by lightning. Bolivia is, on the whole, in a backward condition, political changes and internal conflicts having hindered the development of its natural wealth.

Singular and Plural.

Whenever she gets to thinking how much they're in debt it affects her nerves. "Huh! the way it affects her husband is singular." "How singular?" "Just singular, it affects his 'nerve.' He tried to borrow a hundred from me to-day."—Catholic Standard and Times.

Don't let the baby suffer from eczema, sores or any itching of the skin. Dr. Ross' Ointment gives instant relief, cures quickly. Perfectly safe for all. All Druggists sell it.

Keep Interested in Something.

Many old men break down and become childlike because they abandon business, and thus lose much of their every-day interest in the world around them. It is not uncommon for old people to take up courses of study and successfully pass through them. All such occupations serve to keep the interest alive in something besides mere selfishness, and do more toward warding off "the blues" than all the medicine in the drug stores.

A Shake Up

may all be very well so far as the trusts are concerned, but not when it comes to chills and fever and malaria. Quit the quinine and take a real cure—Ballard's Horeblue. Contains no harmful drugs and is as certain as taxes. If it doesn't cure, you get your money back.

Sugar from Old Rags.

Sugar is now manufactured in Germany from old rags. The rags are treated with sulphuric acid and converted into dextrose. This is treated with a milk of lime, and is then subjected to a new bath of sulphuric acid, which converts it into glucose. The glucose obtained by this process is identical with that of commerce, and may be used in the same way for confections, leas, etc.

Relic of Ancient Sculpture.

During excavations conducted near Willendorf, on the Danube, by the pre-historical section of the Austrian Natural History museum, a chalk figurine, 11 centimeters high, has been discovered in stratum containing instruments and weapons characteristic of the stone age. The figurine shows traces of having been painted and represents a female figure with remarkable precision of artistic execution.

Be Careful!

The woman of the house where you're invited to dinner may insist that she has nothing in the house "fit to eat," but we wouldn't advise you to criticize the heaviness of her bread or the soggy of her cake.—Los Angeles Express.

Electric Bitters

Succeed when everything else fails. In nervous prostration and female weakness they are the supreme remedy, as thousands have testified. **FOR KIDNEY, LIVER AND STOMACH TROUBLE** It is the best medicine ever sold over a druggist's counter.

CASTORIA.

The Kind You Have Always Bought Bears the Signature of *Dr. J. C. F. Fletcher* The Czar of Russia, with 90,000,000 acres is the biggest landowner in the world.

Not Qualified for the Job.

Father (Impressively)—"My son, I want you to be very attentive to your new teacher, who is a man of wide and general information. He can teach you everything you need to know." Small Boy (derisively)—"Hef He don't know nothin'! Why, he can't even tell who's pitchin' in the league teams."

Cures Chronic Cases.

Cures every time: "Your Hughes' Tonic for chills and fever has never failed yet, and I have sold it to a number of chronic cases. It cures them every time." Sold by Druggists—50c. and \$1.00 bottles. Prepared by Robinson-Pottet Co., Incorporated, Louisville, Ky.

White Horse of Kilburn.

The biggest artificial horse in the world is the famous White Horse of Kilburn, near Thirsk, which was formed by a native of Kilburn 50 years ago, who cut away the turf in the correct form and then covered it with limestone—the whole occupying about two acres of the side of the hill. The figure makes a conspicuous landmark for over 20 miles round.

Worked Wonders

Mrs. C. P. Wiggins, Lexington, Ky., says: "I gave my fowls Bourbon Poultry Cure when they were sick and it certainly worked wonders." Sold by St. Bernard Mining Co., Incorporated, drug department.

True Philosophy.

I have been told of a Spaniard who always put on his spectacles when about to eat cherries, that they might look bigger and more tempting. In like manner, I make the most of my enjoyments, and pack away my troubles in as small a compass as I can.—Robert Southey.

ndidates for Circuit Judge and Commonwealth's Attorney Will Speak Here Monday Night

THE AUDITORIUM RINK AFTER CLOSE;
OF THE RELIGIOUS SERVICES.

d at The Colored Rink For Accomodation of The Colored Voters.

RE HAS BEEN SPLENDID MUSIC SECURED FOR EACH MEETING.

Jon. C. J. Waddill, republican
ndidate for circuit judge, and
an Carl Henderson, republican
ndidate for Commonwealth's
torney, will be heard in Earlington on Monday evening next,
allowing the very successful
etings held Friday night for
governor, and because of
ions prevailing, the same
will be altered and two
ings will be held instead of
giving opportunity to the
ers to address the maxi-
mum number of citizens. Be-
cause of the protracted meeting
in progress at the Auditor-
ium Rink the meeting of the
white citizens will not be held
until after the close of the ser-
vices, at 8:30 o'clock. And the

committee has decided to have
those gentlemen speak in the
rink after the religious services
are concluded, with the assent
and approval of those in charge
of the protracted meeting. In
fact, a very friendly exchange of
courtesies is on between Rev.
Brandon and Rev. Davis, who
are conducting the protracted
meeting, and the gentlemen who
are arranging the political meet-
ing. The preachers are very cor-
dially inviting all voters who
would attend the political speak-
ing to come early and hear a
good, short sermon and first rate
church music; and the committee
is extending to all church goers,
and ladies especially, a hearty
invitation to remain after the

church services and hear the
gospel of good will and earnest
endeavor in politics, guarantee-
ing that nobody will be called
any ugly names.

This speaking date was first
announced several weeks ago.
The Klub Kentuck Band has
been engaged to furnish music
for this meeting.

As was done when Gov. Will-
son spoke here Friday night,
there will be a meeting of the
colored voters at the colored rink
upon a plan that will give two
large audiences opportunity to
hear the speakers. The Colored
Cornet Band, it is understood,
will make music for the meeting
at the latter place, and a plan of
division of speakers will be ar-
ranged that will be convenient
all around.

There is more Catarrh in this section of the
country than all other diseases put together, and
until the last few years was supposed to be in-
curable. For a great many years doctors pro-
nounced it a local disease and prescribed local
remedies, and by constantly failing to cure with
local treatment, pronounced incurable. Science
has proven catarrh to be a constitutional disease
and therefore requires constitutional treatment.
Hall's Catarrh Cure manufactured by L. J.
Cheney & Co., Toledo, Ohio, is the only consti-
tutional cure on the market. It is taken inter-

Our School Visited.

Once in eight or more years,
a father, other than a school of-
ficial, has visited the Earlington
Public School to see the work be-
ing done. A few others who were
never in an organized graded
school, and in an ungraded
school but very little have made
criticisms of our methods. We
invite investigation and compari-
son of our work and methods by
persons competent to investigate
and compare modern schools and
methods. Should we teachers as-
sume to criticize the mining busi-
ness, the banking business or
railroad business without ac-
quainting ourselves with such
business, it would be considered
ridiculous criticism, worthy to
be laughed at and ignored.

A week ago last Friday after-
noon Mr. and Mrs. C. H. Gold-
smith visited the grade in which
their little girl is doing herself
and parents much credit. We
were not only glad to have Mr.
Goldsmith and his wife to visit

them to come again.
We have always solicited the
patrons of the school to visit us
and see our work. If they
would come and acquaint them-
selves with the teachers and
their pupils, the work, the
methods, and the efforts put
forth to help the children on to
successful life, there will be
more commendation and less
condemnation of the greatest
factor in the community for
good.

We invite and urge the pa-
trons to come and cooperate
with us. Cooperation with the
teachers is necessary if the best
results are to be had.

NO REASON FOR IT.

When Earlington Citizens Show the
Certain Way Out.

There can be no just reason why
any reader of this will continue to
suffer the tortures of an aching
back, the annoyance of urinary dis-
orders, the dangers of diabetes of
any kidney ills when relief is so
near at hand and the most positive
proof given that they can be cured.
Read what an Earlington citizen
says:

John Franklin, Earlington, Ky.,
says: "For three years my kidneys
were disordered. When I stooped
or lifted, sharp twinges darted
through my loins and there was an
almost constant pain in the small of
my back. I tired easily, frequently
suffered from headaches and was
also bothered by dizzy spells. I
was caused additional annoyance by
too frequent passages of the kidney
secretions, it being necessary for me
to arise several times during the
night. I finally procured Doan's
Kidney Pills and received such
prompt relief from their use that I
continued taking them until com-
pletely cured. I cannot recommend
Doan's Kidney Pills too highly."

great meeting. Everyone Cor-
dially invited and a hearty wel-
come is extended to all.

Lump of Coal in Henderson County
Shaft.

Henderson, Ky., Oct. 25.—
Evans Bennett, aged thirty-six
years, was badly injured today
at the mines of the Pittsburgh
Coal Company at Basketts, this
county. A large lump of coal
fell from a car on the cage to the
bottom of the shaft and crushed
Bennett's left shoulder. He is a
son of Police Judge J. R. Ben-

SUSPECT ADMITS HE KILLED GIRL

TELLS HOW HE SHOT ANNA LUTHER AS SHE TOLD OF LOVE AND KISSED HIM.

ISLIP SKELETON CASE CLEARED

Police Believe Accused to Be a Notable Bluebeard and Are Working on in Their Search for Other Wives Living or Dead.

New York, Oct. 24.—"She told me she loved me and kissed me. As she put her face to kiss me again I shot her in the head."

With these words, Otto Mueller, telling how he murdered pretty Anna Luther in the woods near Islip, L. I., last year, completed his confession of the murder.

From the time of his arrest in Astoria, where he lived with his wife and two children under the name of Fred Gebhardt, the assassin, while admitting that he committed bigamy when he married Anna Luther last year, absolutely denied all knowledge of her death.

Finally under a merciless third degree, he broke down and the confession began to pour from his trembling lips, while even the hardened detectives blanched at the brutal enormity of it.

"I married her for her money," he said, "and took her to Europe. Before we ever got back, I was planning to get rid of her, but I didn't mean to kill her then."

Took Her to Woods.

"But she hung on so close that I finally decided to fix her for good. On April 9, 1908, I took her down to Long Island, telling her I wanted to show her some land I owned. We went to Bay Shore and then walked into the woods near Islip."

"Late in the afternoon, when we were in a lonely place, I told her that I was already married and had a wife and a child whom I loved. I told her I wanted to go back to them and that I hoped she wouldn't make any fuss."

"She began to cry, saying she loved me, too, and begged me not to quit her. All this time I was getting my revolver out and I had it behind my back, ready."

"She kept crying and begging. Then she put up her face and kissed me. As she tried to kiss me again I shot her in the right side of the face and she fell over and died. Then I ran away, and I didn't worry any more about it until last week, when they found her skeleton and began to look for her murderer."

Made Other Admissions.

This confession had been preceded by other admissions, which to the police seemed of great importance, in view of what they already know regarding Mueller's past record and his methods with women.

He was sent to a cell, to be kept close and secluded until his removal to Suffolk county, where the crime occurred. Meanwhile, the police have been spurred on in their search for other wives living. Mrs. Gebhardt, or dead, like poor Anna Luther, by the finding in his latest place of residence of a veritable bluebeard chamber full of what appears to be the bridal finery of several women.

Women Cigar-makers in Riot.

New Brunswick, N. J., Oct. 26.—Several hundred women took part in rioting outside the cigar factory of Hirschhorn & Co., where a strike is in progress, and three women were knocked down and roughly handled before the police could quell the disturbance. Nearly 500 young women, mostly foreigners, quit work Saturday, when their demand for an increase in piece work rate was refused.

Boy Shot Near Pecan Grove.

Austin, Tex., Oct. 26.—Earl Shelton, son of Attorney Shelton, was shot near a pecan grove. He was recovering. A man 80 years old was taken into custody. He said that some boys had been taking pecans from his place and when he complained them to stop, they ran and he fired.

80,000 Coal Acres Taken.

Evansville, Ind., Oct. 26.—William Glendon, of Evansville, president of the Green River Coal company, which is located in this city, arrived here and said he had been authorized by the directors of the company to purchase 80,000 acres of the Green River coal lands, which is a well-known coal field. The purchase of the coal lands is a very important one, as it will give the company a large area of coal lands. The purchase of the coal lands is a very important one, as it will give the company a large area of coal lands.

Teeth Placed at Ten Cents Each.

St. Louis, Mo., Oct. 26.—"Teeth at 10 cents a tooth." This is the price offered on by all Greenwald dentists under certain conditions. The patient must be a child living in Greenwald, and must present himself or herself on certain days at the rooms of an organization of wealthy persons which has interested the dentists in work among the poor. The charge is made that parents may feel that they are saving money.

DECREASE IN IDLE CARS

Number Out of Commission Now 58,977
Against 63,888 on September 29.

The bulletin of the American Railway Association states that on October 13 the total surplus of cars on the lines of the United States and Canada stood at 58,977 as compared with 63,888 on September 29, the date of the last report. The decrease is 4,911, or about 32 per cent. It is expected that the surplus will be somewhat further reduced, but railroad officers believe that the car shortage has nearly reached the maximum. The statement suggests that the railroads are more than meeting the average demands of trade are making great efforts to meet the extraordinary demands of the current month.

NEW UNION DEPOT IN CHICAGO.

Pennsylvania, Burlington, Alton, St. Paul, Panhandle in Plan—To Cost \$25,000,000.

Chicago, Oct. 21.—President McCrea states definitely that the Pennsylvania, Burlington, Alton, St. Paul, and Panhandle will build a new union depot here, costing \$25,000,000. The five roads will become equal partners and tenants. The new work will include a freight station.

President McCrea says: "Anti-railroad legislation will reach its height this fall. Every man jack politician will go to Washington with all the fool legislation he can conjure, and try to work it off on the country. I expect to see more fool legislation at the next session than has yet been passed. Capital is nervous, and if Congress does not see the danger, we shall have a recurrence of the late unpleasantness in the financial world."

We learn that the L. & N. painters will soon commence work on the depot.

Jno. Lanier, J. L. Armstrong and Ed Boyd leave today for Evansville, where they will work in the shops of the E. & T. H. R. R. Co.

O. C. Candler is now on Paris, Tenn., coal run, while Conductor D. E. Lynn is attending court in Nashville.

COLORED COLUMN.

A. R. DRIVER, EDITOR

Rev. R. P. Whiteside, of Madisonville, preached a notable sermon at the Baptist church last Sunday. Bro. Whiteside was in the best of mood and word picturing that would have graced any pulpit in the State. He held the large congregation spellbound throughout. We have seldom had the pleasure of hearing such pulpit oratory. The pastors of our city and Madisonville are well to the front and their precepts and examples are well worthy of emulation.

Rev. H. Amos, single handed, carried on a revival at his church, Rocky Ridge, Trigg county, for two weeks. With his faithful band, waged war against sin and Satan, with prayer meeting in the day and his plain, soul-stirring sermons at night. He caused fifteen, with the help of the meek and lowly Nazarene, to flee from the wrath to come. Prejudice and jealousy may raise its hideous head, but Rev. Amos goes serenely on working for God and his people. May years be added to the good work he is in.

Mrs. Lewis Edwards, who has been sick for several months, departed this life on Thursday night about 10 p. m. We could not get a proper report, but learned she was buried in the new cemetery. Rev. Evans and Whiteside officiating.

Mrs. Garfield Osborne is quite ill at this writing.

Mrs. Mattie Hines, who has been very sick for some time, is improving.

Quite a number of our citizens were in Evansville Sunday.

OLD SOLDIERS ATTENTION!

Any old soldier who made a Homestead Entry of 40, 80 or 120 acres in any state in the Union before the year of 1874, has a claim coming to him from the Government, provided he has never sold this right or taken up another homestead. It does not make any difference whether he proved up on his original Homestead Entry or simply left it.

A soldier who never made a Homestead Entry, or one who entered land after June 22, 1874, has nothing to sell.

We buy the claims. The widow or heirs of a soldier can also sell these rights.

S. R. DRIVER, Sec.

The addresses of Gov. Willson Friday night, here, and Saturday in Madisonville, were par-excellence, with kindly feeling for all; without vindictiveness, the sarcasm and vilification that mars the political speeches of many. His excellency made a clean cut forcible speech for the betterment of Kentuckians his big heart overflowing with warmth and generous thankfulness to and for all the people and proved to all motto "suaviter in motio fortiter in re."

Rev. R. M. Hall, of the Gap, was in town last Sunday.

Rev. T. R. Evans and Whiteside, exchanged pulpits for the day last Sunday.

Henry Maxwell, who has been quite sick for some days, is improving.

As we go to press we learn of the illness of Salmon Andrews.

Sam Wortham, who injured his back quite severely while at work,

In our opinion if our waiting room at the depot was visited by the proper officers about train time, much unpleasantness to travel might be avoided. Nuf sed?

Before the next issue of this column the battle of ballots will have been fought. Some may think because the Governor or President is not involved, it matters little. Every election is big with interest, just as a pebble effects the whole lake, just as one ballot right or wrongfully cast may effect the entire election. Nov. 2. will call for your best and most sober thought from Constable to Circuit Judge. The legislative body of the state is in the swim, good law, good morals, good government is before you, those who stand for it should rule. Vote right as God gives you light.

Catching Pigs with Baryta.

An old practice of gypsies was to poison pigs and then eat the flesh when thrown away by the farmers. This poison was carbonate of baryta, and was safe, provided all parts that were near the entrails were carefully washed and soaked. Gypsies call it

FUNERAL A SPECIALTY

Idleness is an Atrophy. The prosperity of a people is proportionate to the number of hands and minds usefully employed. The community, sedition is a fever, a gangrene and idleness is a gangrene and idleness wastes more than it acquires. Must gradually decay, and even that continues to be fed and labor takes away some of the public stock.—Dr. J.

Great Loom End and Bargain Sale

Begins Saturday, October 30th, and Continues
Two Weeks, Ending Saturday, November 13th.

The Bargain Event of the Season. The One the People Wait For. The Sale of Unparalleled
Money-Saving Possibilities. A Semi-Annual Benefit For the Great Buying Public.

Extra Dress Goods, Silks, Hosiery, Underwear, Shoes, Shirts and Clothing values. Once more I wish to demonstrate what my former sales have established beyond any doubt, the fact that hundreds of families fully appreciate the money-saving advantages of these great Semi-Annual Money-Saving Sales. Confidence in my goods, in my advertising and in my business methods have attracted crowds to my store that have taxed my capacity to the utmost, and all have gone away satisfied with the bargains I offered. I will not let such appreciation wane, and for months I have heeded every energy toward making this sale as great as my former ones, as the merchandise for this great sale was purchased several months ago, before the recent advanced prices on all classes of merchandise. Pick up your daily or weekly newspaper and look up the prices of cotton, wool and leather. See the daily advances of all kinds of cotton goods, woolen goods and shoes and take my word for it that it will be many months before good reliable and desirable merchandise will be offered in Madisonville again at such small prices as I name in this great sale.
